## Letter of recommendation

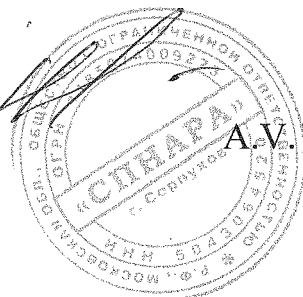

The "SP NARA" LLC expresses gratitude to the Mold & Die Design Company for the provision of services in the development of design documentation.

Since 2020, our company has been working side by side with Mold & Die Design Company. During the cooperation, the specialists of the Mold & Die Design Company confirmed their competence in the development and design of tooling. About 60 common projects for the design of dies for shearing and shaping operations, and compound and progressive dies were implemented for the time of collaborative work.

It stands to mention the design documentation quality. Design documentation, corresponding to modern standards, was developed for each piece of tooling. The tooling was developed on time, considering the peculiarities of own production and the customer's requirements. The specialists, of the Mold and Dies Design Company, on a timely basis, provided quick and comprehensive consultations in rare instances of any questions at the stage of production, assembly, and startup of molds.

The "SP NARA" LLC judge that the Mold & Die Design Company has approved itself as a responsible partner. We express a desire to cooperate on future projects.

General Director  
of LLC "SPNARA"

  
 A.V. Naumov
